## About Us

Rydofleet is a complete ride dispatch and booking platform built for modern taxi and limo operators. Our mission is to give your business one connected system that handles everything from the first booking to the final drop off. We help you increase productivity, reduce manual work, and deliver a better experience to every passenger. When you work with Rydofleet, you get a long term partner, not just software. The platform runs on reliable cloud technology and brings your dispatch office, drivers, and customers together in real time.

## At a glance

- One platform for taxis and limos
- Real time tracking across your whole fleet
- Built to scale as you add more vehicles
- Cloud based, secure, and always available

# Our Products

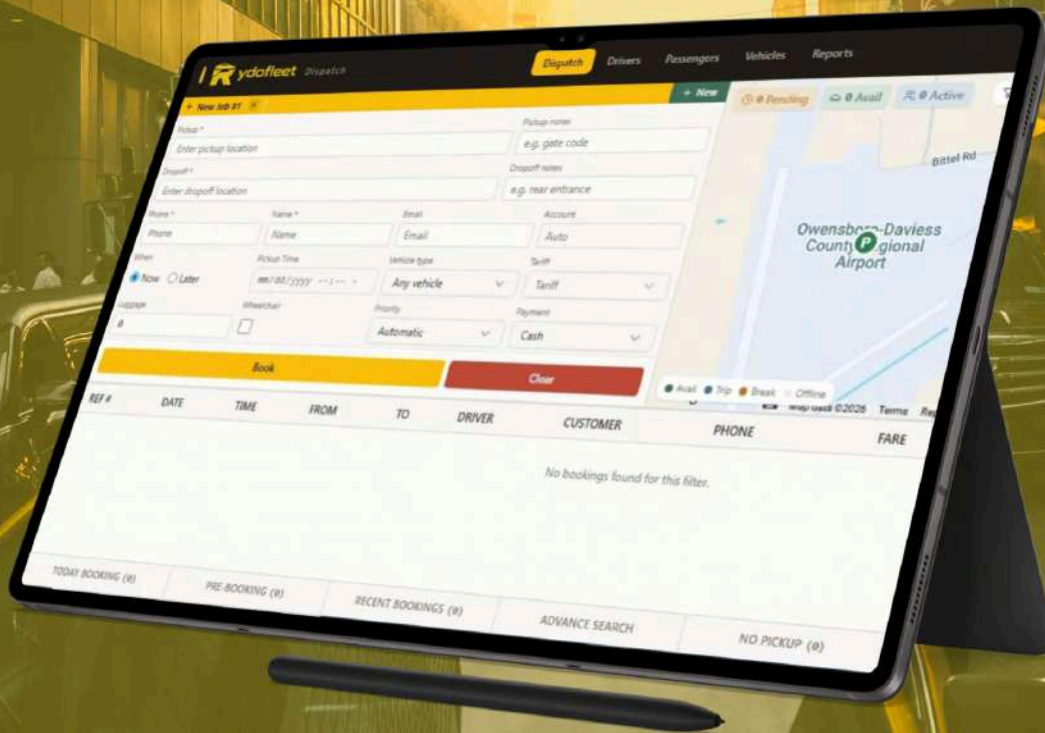

Rydofleet brings together four core products that work as one connected system. A booking made anywhere flows instantly to your dispatch office and out to the right driver, with no manual steps in between.

- 01 Dispatch System**  
The control center where your office manages every booking, driver, and trip in real time.
- 02 Driver App**  
The mobile app your drivers use to receive jobs, navigate, and get paid.
- 03 Passenger App**  
The branded app your customers use to book, track, and pay for rides.
- 04 Web Booker**  
Online booking built into your website so customers can book directly from any browser.

# Dispatch System

The Rydofleet dispatch system automates the back end of your booking operation. From customer and corporate invoicing to storing all your customer and driver records, it keeps every part of your business running smoothly. Watch all taxis and limos move across a live map, assign trips by hand, or let smart auto dispatch find the nearest available driver for you. Everything updates instantly, so your team always knows where every vehicle is and what every trip is worth.

## FEATURES

- 01 Auto dispatch to the nearest available driver
- 02 Live map view of your entire fleet
- 03 Comprehensive accounts, invoicing, and billing
- 04 Scheduled and advance bookings with reminders
- 05 Full customer and driver records in one place

# Driver App

Keeping your drivers happy is essential if you want to grow your business. The Rydofleet driver app is clean and easy to use, with modern features like earnings analytics, route optimization, and job bidding. Drivers see the pickup, distance, and fare before they accept, and automated arrival messages keep customers informed without any effort. It works for both taxi shifts and scheduled limo bookings, giving your drivers the flexibility to work on their own schedule.

## FEATURES

- 01 Go online and accept trips with one tap
- 02 See pickup, distance, and fare before accepting
- 03 Turn by turn navigation to every job
- 04 Automated arrival and on the way messages
- 05 View scheduled and future jobs
- 06 Daily earnings and trip history
- 07 Accept multiple payment methods

# Passenger App

Give your customers a fast, simple, and intuitive booking experience with the Rydofleet passenger app. Riders set their pickup and drop off, choose a standard taxi or a premium limo, and confirm in a couple of taps. They see the driver photo, vehicle details, live location, and a fare estimate before they book. The app offers real time tracking, the option to share trip details with family and friends, and the ability to contact the operator at any time.

## FEATURES

- 01 White label and fully branded to your company
- 02 Book a taxi or a limo in a few taps
- 03 Real time driver tracking on a live map
- 04 Upfront fare estimates before booking
- 05 Share trip details with family and friends
- 06 View current, upcoming, and past trips
- 07 Available on Android and iOS

# Web Booker

The Rydo Fleet web booker brings online booking straight to your website. Your customers enter their travel details in their browser, and the booking is sent instantly to your dispatch system and assigned to the right driver, with no manual work on your side. It is the easiest way to capture bookings from people who find you online, day or night.

## FEATURES

- 01 Book directly from your website, no app needed
- 02 Bookings flow straight into the dispatch system
- 03 Works for taxi and limo bookings
- 04 Responsive and mobile friendly on any device
- 05 Multilingual with live chat support
- 06 Run loyalty and marketing promotions
- 07 SEO friendly for wider reach
